

11/30/15

Dear Beth,

I am a senior at Ichabod Crane High School in Valatie, New York. In my Latin America class we have been watching the film about your husband, "Missing". I think it is great that you have been spreading the truth of what really happened to Charlie. The world deserves to know about the horrible events that took place during the coup. I was surprised at how little was done to help you and Charlie's father find Charlie. I was also surprised at how long it took for you to finally conclude what had happened to him. What happened is still important today, and The Horman Truth Foundation helps in educating people today about what occurred so long ago. I took an important lesson from your movie, that you should never stop fighting for those that you love and care about. I admire what you have done to share Charlie's story with the world, and I am sorry for your loss. There are some horrible things that happen in this world for no reason at all, and all we can do is fight to make it a better place - this is what you are doing.

Sincerely,

Mirrah Erina

Dear Beth Horner,

I am a Junior from Ichabod Crane High school and My class just finished watching the movie "Missing". To say the least it was a very interesting movie. It showed us the madness that was Chile in the 1970's after the military coup. The movie showed us that sometimes, the U.S Government can be un-cooperative in times of need. When it comes to affairs in different countries. This movie connects with me because I too have had a close family member go missing. It was my uncle. He wasn't taken away by the government like your husband. He left our house without telling any one where he was going. He also wasn't missing as long as Charlie. the police found his body a couple days later in a hotel room. he died due to over dose. The main reason I'm writing my letter is to let you know that you are not alone.

Yours truly
David Bryant

Dear Beth Horman,

My name is Michelle Loyola. I am a senior at Ichabod Crane high school. I just finished watching the movie "Missing" in my Latin America Studies Class. I can't believe what the military coup did to Charlie. I'm so sorry for your loss. I was shocked ~~when~~ when I heard the US military was involved. I think it's a great thing you're doing trying to put in jail the people who were involved in killing those innocent people. I liked that you made a foundation for Mr. Horman. So everybody knows the truth about what happened to Charlie and those innocent people. In the movie I saw what the military coup did and how dangerous it was. I can't believe what a terrible thing you had experienced. I also saw the treatment women got and how they had to wear skirts. How the Chilean people were scared. It must have been frustrating that the American military didn't help. I really

like the part where it talks about how good of a man Charlie was. I would of love to meet him.

3 Charlie is a ~~bad guy~~ great man and really talented. I love that he was always optimistic. I hope you find those responsible for killing all the innocent people. I wish you and the foundation the best luck.

Sincerely,
Michelle Layale

Dear Beth

I have a class call latin America and we just watch missing. I thought it was a really good movie which had a lot of information that I really didn't know. I was really surprise with this movie because the people were treated really bad and the worse part is that they were innocent people. I felt so bad when Charlie was found dead, I'm sorry for your lost. I really like this type of movies because sometimes the people doesn't even know what's happening around them and out there in the world, this type of movie will let you know what really happened and will inform you ~~about~~ of what the government doesn't want to tell us. It was really unfair but thank god is over.

Sincerely, Oriana.
Ulloque

Dear Beth Horman,

11/30/15

I am a senior at Ichabod Crane High School. I'm taking a Latin America studies class and we just finished watching the film "Missing" based on the experiences of your husband, Ed Horman, and yourself in Chile. I think your determination in spreading the truth on what happened to Charles is very inspiring. I am shocked at how very little help you had gotten to find your husband. It must have been a long and hard process to have to go through, especially having been in a foreign country. I'm glad we have a foundation like yours to keep the idea that we, as a country, need to work to keep the world at peace. Today, it is very well known that the military still holds a strong grip over some countries and groups of people. What happened to Charlie was horrible and I couldn't imagine what he had to go through. I hope, because of people like you, we will be able to, one day, find peace and justice in this world.

sincerely,
Taiyler

Dear Ms. Hormann,

My name is Nigel. I am a junior at Ichabod Crane H.S. I just finished watching the movie, "Missing" in my Latin America studies class. I was shocked of the events that had happened. Especially the actions of the military. I am inspired of your foundation. It is very meaningful; the event gave ~~me~~ an insight of the tragic event. I could not be in that situation when Chile was ruled by military. I saw the circumstances of shootings, curfew, and the dangers. I also respect Charlie for his bold actions.

sincerely,
Nigel Salva

Dear Beth,

My name is Mark Wright, I am a senior at Ichabod Crane H.S. I just finished watching the movie "Missing in my Latin America class. I was shocked to learn about this situation, it left me speechless. The experiences in Chile because of the case we just mind blowing. This film is still important because we don't want to repeat history. The foundation is a great way to try and keep this whole thing alive. This movie shows that the U.S. government can get out of hand sometimes. It wasn't fair to the citizens of that country.

Sincerely
Mark

Michael Anderson

Dear Beth,

My name is Michael Anderson. I am a senior at Ichabod Crane taking a latin America Class where we watched the movie "missing". This movie opened my eyes to the impact of America ~~had~~ on other Countries. I was surprised to see how brutal the military was towards innocent people. I am glad that the Human truth foundation was made because it raises awarness to those who might not have known about this case, such as myself. Charlie was a very smart man and his impact will last forever around the globe. The fact that he was willing to risk his life to gather new information is amazing and proves how dedicated he really was. Thank you for taking the time to read this.

From,
Mike

Dear Beth Horman,

I was lucky enough to recently view the movie "Missing", based on your experiences. I am a part of a Latin America studies class in upstate New York. I personally view the acts perpetrated during Pinochet's coup as an atrocity. I also think that the involvement of the US government in the coup is a reminder that violence and unwillingness to coexist causes death and suffering. Foreign involvement to tear down governments in the attempt to make the government "acceptable" to the foreign power is unacceptable. I find this is important today, we will never live in a world of peace if imperialism and intolerance for others remains. Too many times throughout history, and a dictator is seen as more acceptable than socialism. I for one am in full support of your foundation and believe all officials involved should be detained. Too many countries live under the thumb of militaries, foreign and domestic. Thank you for pursuing truth, and doing everything in your power to let truth shine.

Sincere Regards,

Hunter S. Messing

Hunter S. Messing

Dear Beth Horman,

Charles

I'm deeply inspired by the determination of both yourself and father-in-law's efforts to locate your husband, and his son, ~~Horman~~ Horman. It seems that our basic instinct as Americans is to stop any sort of corruption in its tracks in order for things to remain under control / humane. Under no circumstances is mass genocide okay, and Chile with the assistance of its military was committing just that. Killing thousands and then burying them ~~while~~ while still unidentified, could've left yourself and Ed without answers for years, and most certainly did leave others without and wanting of more answers.

The events that took place in Chile portrayed by the film Missing are gruesome and horrifying, the fact that things like this occurrence could still take place in the 1970's is aghast; and justice ~~wasn't~~ to this day in 2015 has still not been completely served.

- Aileen Corrigan ♡

Dear Beth Harman,

I am a Senior at Ichabod Crane High School. I am currently taking a Latin America class. In our Latin America class, we watched the movie "Missing." I understand that you have been through a lot and want to bring justice to Charlie. I would like to hear more about your personal experiences in Chile. How did you feel going out on the streets and was it scary knowing you had to make it back by curfew? Did you ever keep a journal like Charlie? I think it is great that you run The Horman Truth Foundation. It puts pressure on the accused official and spreads awareness of what could happen to any citizen like Charlie. I wish you the best of luck with the foundation and I hope I did not ask anything too personal. I hope you can make this a better world!

Best wishes,

Andy R.

Dear Beth Horner,

My name is Victoria Machado. I am a senior, at Ichabod Crane High school upstate New York. I watched the movie "Missing" in my Latin America class. I was shocked with all the cruel experience you lived in Chile. I am so sorry for your lost and I believed it was so unfair that they send his body seven month later and the trial was dismiss.

I believe that the United States played very unfairly and did not protect their people and also helped in the Civil War. People getting shoot in the middle of the streets or being collected to a soccer field to be killed. What a cruel thing to do with their own folks. I think it is important that you keep with foundation and sharing with us the truth and the history. We cannot forget about the cruel things that happens against innocent people that also goes against the 1st Amendment "freedom of Speech"! ☹️ I am looking forward to hear back from you.

Sincerely,

Victoria Machado

Dear Ms. Hornman,

11/30/15

My name is Yulissa Gomez. I am a student at Ichabod Crane High School. I just finished watching the film "Missing" in my Latin America Studies class. I was surprised to learn what happened in Chile to ~~husband~~ your husband. I'm sorry ~~about~~ ~~you~~ to your loss. It is a very sad story. ~~and~~ You have been very strong when all of the revolution ~~has been~~ been on. Was happening. I'm a Spanish language speaker and I feel sad of what happened in Chile. It is sad. But a similar story happens with immigrants that need help like you did. Many people go through this like a story that I read. Is about a little girl called named Deyanna. She was 6 years old when she had to travel to the US illegally by crossing the border with a coyote. She did it because her parents were in the US and she did not want to fall in hands of the violence that is happening in Honduras, Guatemala, El Salvador mostly in Latin America. It hard to know how the poor can change people. It is very sad. I hope you feel better with the truth foundation and I wish you more ~~our~~ success in your future.

sincerely,

~~Yulissa G~~
